He wouldn't lons of sa't water from here to Chibe likely to prevaricate about a cago for the salt water fish to be little thing like that.

REV. E. J. Dupny, whe, with others, has come to this country to secure money for the work of evans Gladly we welcome thee or co more gelizing France, says that after Royally to crown thee as before; sixty years of labor, there are only O'er party strife victorious, 700,000 Protestants in Franc , as Vallant thou'st won and glorious, against 37,000,000 Catholics.

Ir would now reem to be in order, and the proper thing, for the numerous debtors of M., Mc- Ever the champion of Reform, Kinley (the tariff protected barons Vallant for Right mid calm or storm, of the country) to com forward ipsing a with their ill-gotten gains and help I oud let thy well earned praises pour their benefactor out of his trouble. All hall! corruption's hordes we see That they will do it, let no one Drive on and make our country free.

Cengressman Butler, of Iowa, is the proud inventor of a scheme for changing the American flag so as to group the stars on the field in the form of a paner. He would also have the Goddess of Liberty reconstructed and drapped somewhat after the fashion of a circusrider, with laced boots and other modern garments, a cap in the form of a pansy bud and a ballot in black and white on her breast, She should bear in her left hand a huge penholder; but why not a typewriter, if our Goddess is to keep up with the procession?

The Cure of Consumption On s of the most interesting developments of modern medicine is the new hope it has brought to consumptives, along with the gens CORN, MEAL AND COFFEE. eral hope it holds out of the dreaded malady. The recognition that tuberculosis is not a self-originate. ing disease and that even heredity will account only for a predisposis not for an inevitable attack, Huyler's candy at carries with it the recognition both

be discovered and destroyed. Thus the science of preventive medicine which seeks to prevent the spread of tuberculosis through tood supply as well as by human agencies, is close'y connected with EDITOR AND PROPRIETOR the treatment aimed to relieve the indivdual sufferer. Out of this conception of the preventibility and consequently the curability o consumption, comes the modern idea of hospitals for consumptives, where the patient, no longer a source of danger to his own houses bold, can be currounded with all those hygienic advantages that exights are at stake. Progressive, abreast of the perience has shown to be o value age, we shall a! ways endeavor to keep our edi- and that he could not obtain at

The short experience of the Rush Hospital, with a record of a ion any paper in Factorn form tractor, proportion of improvements and even recoveries impossible in private practice among a similar average of cases, is a most encouraging suggestion of what may yet be accomplished in this way, This work is most important in its public re-March 4th, 1893, will forever be spect and particularly worthy o' ual cause, inadequate means.
